

HGDMRS Instructions to resolve problems with logging in to the members zone.

You need to clear the cache in your browser (Internet Explorer, Firefox etc.)

Follow this link for instructions about how to do this for the most popular browsers.

<http://www.google.com/support/accounts/bin/answer.py?hl=en&answer=32050>

Once you have done this for your particular browser, you will need to close your browser completely.

Then re-open the browser and go back to the Club's website www.hgdmrs.org.uk

You should then be able to input your login name and password and gain access to the members zone.
